MILLIONS LOST IN WALL STREET CRASH

Failure of International Zinc Company Hits Thousands of Investors All Over the Country. Its Mine in Missouri.

Inquiry in Wall street shows that the failure of the International Zinc Company, announced to-day, probably involves millions of dollars.

Investors in the stock of the Com-000,000, were drawn from all parts of the country, and the quantity of mail pouring in with anxious inquiries about the Company is so large as to cause trouble to the postal authori-

This sum was to be used in the erec tion of three new mills. It was claimed that the company was earning 22 per cent, on its capital, issuing a 12 per cent, dividend and forwarding 10 per cent. to the surplus. When all improvements were completed the com-pany would earn 42 per cent. Safeguards were guaranteed the investor. The following list of officers was printed:

Shortly before Christmas the handsome offices of Joshua Brown & Co. vanished. The handsome furnishings were taken out, the typewriters and the clerks went their way. Incidentally

clerks went their way. Incidentally Joshua Brown left no address as to his future whereabouts, and much mail accounsulated that gave the postal authorities trouble to dispose of.

Anxious stockholders soon called and said that the monthly dividend of 1 per cent. so faithfully promised them in the prospectus had falled to materialize.

To-day's despatch from Joplin says that several of the stockholders had put the international Zinc Company into the hands of a receiver. The receiver is reported to have declared that the \$1,000,000 capital stock is not justified by either the actual or prospective assets of the company. The principal of these of the estate of the late Peter H. Wycklass Doughesty, stockholder of the off, who was general freight agent for trucks hastened to the blaze.
